

Oil Only Absorbents

Our oil only absorbent range will absorb oil whilst repelling water, due to the hydrophobic material that they are manufactured from. Oil only absorbents will float indefinitely to full saturation and are manufactured from strong polypropylene fibre which resists tearing and disintegration. Oil only absorbents act quickly, decreasing the risk of environmental contamination and are suitable for all fuels and hydrocarbons indoors and out. Colour coded white.

Oil Only Pads

| Code | Description | Size | Pack Qty | Pack Absorbs (litres) |
|--------|-------------------------------|-----------|----------|-----------------------|
| OPH100 | 360 gsm heavyweight pad | 40 x 50cm | 100 | 120 |
